SECTION NINE

RESPONSIBILITY FOR STUDENTS

Contractor shall be fully responsible for the care and supervision of students during their period of transportation. The transportation of a student shall be deemed to have begun when the student prepares to board the school bus, and shall be deemed to have ended when a student has completed alighting from the bus at the student's designated bus stop or, in the event the bus driver deems the student's designated bus stop unsafe, a reasonably safe place in which to alight in view of the circumstances then prevailing.

SECTION TEN

COMPLIANCE WITH LAWS AND REGULATIONS

10.1 **Contractor Compliance with Governmental Authority.** Contractor and Contractor's drivers are required to comply with all Federal laws, the laws of Idaho, and all regulations or requirements of the State Motor Vehicle Department, Public Utilities Commission, and the State of Idaho and the local Board or any of them. Furthermore, all school bus drivers employed by Contractor must submit to a criminal history background check pursuant to Idaho Code § 33-130.

10.2 **Agreement is Subject to Governmental Appropriations.** It is understood and agreed that District is a governmental entity and this Agreement shall in no way or manner be construed so as to bind or obligate the District or the State of Idaho beyond the term of any particular appropriation of funds by the Idaho Legislature or the Congress of the United States as may from time to time exist. In the event the Idaho Legislature or Congress fails, neglects or refuses to appropriate such funds as may be designated by and enable the District to continue the payment herein, this Agreement shall automatically be terminated and all future rights and liabilities of the parties hereto shall thereupon cease.

SECTION ELEVEN

PAYMENT

11.1 **Billing, Payment and Verification Procedures.**

a. *Billing and Payment.* On or before the eighth (8th) day of each month of each school year covered by this contract, Contractor shall submit to District a bill that shall include a detailed account showing the mileage covered in each category of transportation furnished during the preceding month. On or before the fifteenth (15th) day of the month in which the bill is submitted, District agrees to pay Contractor the contract price for those services that it shall find to have been rendered, computed on the basis of the bid submitted by the Contractor to District, adjusted by the terms of the adjustment provisions set forth in paragraphs 11.2 through 11.5, below, if applicable. Contractor agrees to submit to District a year-end summary for state reimbursement by August 1st of each year for the preceding one-year period.

b. *Past Due Billings*⁸. If payment is not received by the fifteenth (15th) day of the month which follows the month the billing was originally submitted, transportation will cease at the end of the month that the billing became past due.

c. *Verification.* District has the right to inspect Contractor's records at any reasonable time during Contractor's regular business hours to verify the accuracy of the information and data used to compile and calculate the billing. This right may include an annual audit within the scope of this Agreement; provided, however, that any such audit, if called for by District, shall be at the cost and expense of District, not Contractor.

11.2 **Consumer Price Index (C.P.I.) Adjustment.**

a. *Applicable C.P.I.* The annual Consumer Price Index ("C.P.I.") adjustment shall be based on the C.P.I. as defined by the Federal Government. The C.P.I. to be used will be the "Consumer Price Index for All Urban Consumers: U.S. City Average for All Items (1982-1984 = 100)" published monthly in the *Monthly Labor Review* of the Bureau of Labor Statistics of the United States Department of Labor ("CPI-U"). In the event the CPI-U is discontinued, the alternate C.P.I. which will be used will be the "Consumer Price Index for All Urban Wage Earners and Clerical Workers: U.S. City Average for All Items (1982-1984 = 100)" published monthly in the *Monthly Labor Review* of the Bureau of Labor Statistics of the United States Department of Labor ("CPI-W"). In the event both the CPI-U and the CPI-W are discontinued, comparable statistics on the purchasing power of the consumer dollar published by the Bureau of Labor Statistics of the United States Department of Labor will be used for the computation.

⁸ Example of time line for past due billings: March billing - submitted April 8th, April 16th - billing past due, May 1st 30-day notice declaring the District in default, May 15th - amount still past due, transportation will cease if payment not received by May 31st.

b. *Diesel Price Alteration to C.P.I.-U.* To avoid compounding of the Fuel Price Fluctuation Adjustment set forth below at paragraph 11.3, a diesel price alteration to the CPI-U will be made to remove the diesel fuel portion from the CPI-U index before applying the CPI-U for annual rate adjustments provided for in subparagraph (c), below. The alteration will be made in accordance with the recommended methodology by the State of Idaho Department of Education using information from the Bureau of Labor Statistics of the United States Department of Labor.

c. *C.P.I. Adjustment Calculation.* The base contract shall be for a term of five (5) years, beginning April 1, 2017. The negotiated prices set forth in Exhibit "A" will be used by Contractor for the operations during the first year of the contract, April 1, 2017 through March 31, 2018. Contractor compensation for the second, third, fourth, and fifth years of the contract, beginning on April 1 of each successive year, shall be based on the percentage of increase (or decrease) in the CPI-U.⁹ The "Benchmark Month" for determining the change in the CPI-U shall be March 2017. If the increase (or decrease) in the CPI-U from the Benchmark Month to March 2018 is at least one percent (1%), the rates for the second year of the contract shall be adjusted by the amount of the increase (or decrease). This same procedure will be followed to determine the rate charges for each of the remaining years of the contract.¹⁰ The increase (or decrease) calculation is cumulative over the entire contract period.

11.3 Fuel Price Fluctuation Adjustment.

a. *Base Price.* To protect both the District and Contractor against future changes in fuel prices over which neither District nor Contractor has control, the District has determined a base price for fuel as of Thursday, February 9, 2012. The base price of diesel #2 low sulfur fuel, is **\$3.85** per gallon ("**Base Price**") as of that date. This price includes any applicable state and/or Federal taxes, in addition to state transfer fee, freight and supplier mark-up. The Base Price was determined by using the Boise Rack price which is based on the Oil Price Information Service (OPIS) average fuel price for the State of Idaho ("**OPIS Price**") for February 9, 2012.

b. *Calculation of Adjustment.* Starting April 1, 2017, the Contractor's rates will be adjusted up or down for any difference in the then-current Boise Rack price based on the OPIS Price above or below the Base Price. For every incremental price change of at least five cents (\$0.05) above or below the Base Price, there will be a fuel price adjustment added to

⁹This is the CPI-U adjusted as provided for in subparagraph (b), above.

¹⁰A sample calculation under this approach is as follows: If the CPI-U for March 2017 is 169.2 and the CPI-U for March 2018 is 170.3, there would be no adjustment for the second year of the contract (2018-2019), because the increase in the CPI-U was less than 1% $[(170.3 - 169.2) / 169.2 = 0.650\%]$. If, however, by March of 2019 the CPI-U was 173.1, the bid rates would be increased for the third year of the contract (2019-2020) by 2.305% $[(173.1 - 169.2) / 169.2 = 2.305\%]$.

or subtracted from the route rates in the amount of \$.50 per-route-per-day. Rate adjustments up or down will not be calculated more frequently than once per month. This adjustment is independent of the C.P.I. Adjustment of paragraph 11.2, above.

11.4 Mandates by Local, State or Federal Government. It is recognized that governmental mandates, whether local, state or Federal, that were unanticipated and/or did not exist at the time of bidding, that might require additional training, retrofitting of equipment or any other requirements that become necessary to fulfill the terms of the contract, might be adopted and effective during the period of the contract. Generally, such cost shall be borne by Contractor; however, if such mandates are qualified to be paid by the state or other governmental entity, Contractor, upon presentation of a statement of costs incurred, will be compensated by District as normal and necessary transportation costs of the District.

11.5 Effect of Material Fundamental Changes to District Busing Model. It is understood and agreed by District and Contractor that the bidding by Contractor for this contract was predicated on the student transportation model anticipated by the District. In the event any material changes are implemented by District during the term of this contract which would effect material fundamental changes in the existing student transportation model, the parties agree that all bid rates for the contract will be reviewed and renegotiated by the parties for the remainder of the contract term to take into account the altered District student transportation model.

SECTION TWELVE

INSPECTION

District reserves the right for its members or duly authorized agents to inspect any and all buses and their operation by riding as passengers or by other reasonable means.

SECTION THIRTEEN

TIME OF THE ESSENCE

Since the contract concerns a necessary public service, the provisions of the contract relating to the daily schedule and regulations that may be promulgated by District are of the essence of the contract. Accordingly, Contractor shall prosecute the work diligently to assure adherence to the schedules.

SECTION FOURTEEN

ASSIGNMENT OF CONTRACT

Contractor agrees not to assign this contract, or any interest in the contract, without the prior approval in writing of District, which approval shall not unreasonably be withheld.

SECTION FIFTEEN

FAILURE OF OPERATION

Except as otherwise specifically provided herein, in the event that Contractor fails to operate any route because of the failure of equipment or personnel, the amount of payment for the route may be deducted from the following month's payment at the then-current rate.

SECTION SIXTEEN

16.1 Termination Without Cause.

a. *By District.* In the event District desires to terminate this Agreement it shall give Contractor written notification of that intent on or before the January 15 immediately preceding the upcoming school year for which the termination will first be effective. Contractor shall not be ultimately determined to be in default under this Agreement if Contractor cures the alleged default(s) within the 30-day period after written notice of hearing on the alleged default(s) has been provided to Contractor.

16.5 Interruption of Service. In the event Contractor fails to provide the student transportation as provided for in this Agreement due to strike, work stoppage due to labor dispute, act of God, civil disturbance, fire, riot, war, governmental action, or any other condition or cause beyond Contractor's control, no penalty shall be assessed to Contractor by District and District shall excuse Contractor from performance under this Agreement. Should Contractor for any reason fail to provide student transportation as provided for in this Agreement, District may use Contractor's buses to transport and/or cause the students to be transported by any available means until Contractor is able to resume its regular operation. In the event District exercises the option of the immediately preceding sentence, it shall pay Contractor the same amount specified in the rate schedule applicable for that year, less all expenses and costs incurred by District in securing the services of such operating personnel.
